

Brush your teeth!

Plan an algorithm for Ruby to brush her teeth. You can use the space below or come up with your own design.

TIP

How specific do you need to be?
Depends on the programming language.

My magical computer

Turn something you've touched today into a computer.
What would the thing do?

1 This is what I made into a computer:

2 The name of my computer:

3 When I press the on/off button my computer will:

Draw a picture of yourself using your new computer.

Computers have sensors that can recognize changes in the environment. Color the sensors your computer has and describe what they do.

-  **Orientation.**
-  **Temperature.**
-  **Vibration.**
-  **Moisture.**
-  **Internet.**

YOU ARE GREAT!

What does the Internet look like?

Are there videos of cats? Or games? What about wires or servers? Can you draw code? What does data look like?

In my Internet you can:

CIRCLE

I wish my Internet was more:

inspiring

supportive

trustworthy

independent

approachable

other:

What is technology?

What is technology? What is it used for?
And who uses it?

You and technology

What do you want to do when you grow up? And how could a computer help you?
